

# SS CONTROLS ALCOHOL BREATHALYSER

## THE AT7000 RAPID ALCOHOL TESTER

The AT7000 breathalyser is designed to perform large numbers of non-contact alcohol tests. It performs well in rugged conditions where zero tolerance of alcohol is enforced.

The AT7000 requires no mouthpieces to operate, which reduces operation costs and increases the ease of use features especially useful for employers, security services, or the police.

An on-screen menu and 3 buttons ensure easy operation of the AT7000. This device simply stands out due to its durable construction, efficiency, long battery life, and excellent testing parameters. This professional screening device will prove useful for public use as well as for employees and security services, allowing for fast screening of large numbers of people.

### Features

- \* Electrochemical Fuel Cell Sensor
- \* No Mouthpieces Required
- \* Calibration Reminder
- \* Led Result Indicator
- \* Test Accuracy Control
- \* Two Mode Operation
- \* Efficient Power Supply

### Specifications

Measuring range	0.00 ‰ - 5.00 ‰
Measurement accuracy	± 0.01 ‰ at 1.00 ‰ BAC
Sensor	<ul style="list-style-type: none"><li>• Electrochemical</li><li>• <u>FastScan</u></li></ul>
Preparation time to measure	up to 5 s
Testing units	‰
Blowing time of the quick breathalyser	up to 4 s
Recovery time	up to 5 s
Power supply	4 × AA battery or LR6 battery
Battery life	up to 4100 measurements (depends on battery)
Calibration cycle	Once a year
Display	<ul style="list-style-type: none"><li>• LED light</li><li>• Light signal</li></ul>
Operating temperature	-5°C ~ 50°C
Dimensions	283 × 72 × 70 mm
Weight	348g with batteries
