ALCOHOL BREATHALYSER

AT9000 ALCOHOL TESTER

AT9000 is an advanced portable breath alcohol tester with a state of the art design. It adopts changeable fuel cell sensor module that has professional grade accuracy, high sensitivity, strong anti-jamming ability and easy calibration.

The instrument is equipped with full-color LCD touch screen with high definition and clear interface making it suitable for outdoor use. The AT9000 has PC interface and comes with a built-in printer which greatly reduces cost.

Features

* Androind Operating System
* Photo, Video & Sound Recording
* GPS Geo-location
* Fuel Cell Sensor Technology
* Passive & Active Tests
* OLED Touch Screen and Keypad
* Rechargeable Lithium Battery
* Switch between Testing Units
* Password Management
* Testing Records- 100,000
* PC Interface, Built-In Printer

Specifications

Sensor type	Fuel cell
Detection range	0.00 - 0.40%BAC, 0.00-4.00‰BAC 0.00 - 2.00mg/L; 0.00 - 4.00g/L
Accuracy	± 0.005 at 0.05%BAC
Pre-set level	0.05%BAC; 0.50‰BAC; 0.25mg/L; 0.50g/L
Warm-up time	<10 seconds
Testing time	< 5 Sec
Display	4.0-inch touch screen
Power	7.4V/2500mAh Lithium battery
Working environment	0℃ - 50℃, ≤95% RH, No dews
Working time	>10 hours non-stop(full charge)
Charging time	Four hours
Dimensions	156mm X 76mm X 38mm @320g
Testing records	100,000
Camera	Dual cameras, rear 8 megapixel, side 5 megapixel
Satellite positioning	GPS/Glonass/Beidou/Galileo
Communication	2G/3G/4G, wifi, Bluetooth
